

Jai Jinendra,

Please find below details of an **Urgent India Donation Appeal for an Emergency COVID Critical Treatment Centre in Gujarat** that we have just opened for the needy.

As the pandemic continues to rage on in India, there lies a desperate need for medical assistance in rural areas of India. In just 10 days, a new specialist COVID Health Centre has been set up in South Gujarat to serve hundreds of rural districts who have no other access to COVID care facilities.

The Health Centre opened on 25th April 2021 with 50 beds and complete facilities including ventilators, BiPap machines, high flow oxygen support, a CT scan machine and an ICU ward to support severe cases of COVID immediately. Plans are already underway to expand the capacity to 100 beds due to the overwhelming need along with a 'COVID Suspect Ward' where extensive testing will be performed to provide early intervention and restrict further spread of the virus.

All treatment will be provided FREE of cost to those in need.

**Donate Now:** [virginmoneygiving.com/fund/CovidHealthCentre](https://virginmoneygiving.com/fund/CovidHealthCentre)

### **COVID Health Centre Donation Schemes**

- 1) £50 - Normal Care of Patient Needing Oxygen per day
- 2) £100 - Critical Care Patient per day
- 3) £200 - Critical Care Patient for two days
- 4) £700 - Oxygen Concentrator Machine
- 5) £4,000 - Running Cost of 50-bed Centre per day
- 6) £10,000 - Entire Ventilator Machine Equipment

We urgently need funds to cover daily patient treatment and expansion. Please donate generously at this critical time when your donations will save lives. This is our opportunity to alleviate pain and suffering by helping India in her hour of need. Please share this Appeal urgently.
